

## **ODESSA INTERVIEW EXPERIENCE**

Name: Hareetha K

Department: IT

### **ROUND 1: (MCQs and Coding)**

Questions were based on Computer Networks, Operating Systems and DBMS. We were also asked to write code for two programs one is on strings and another on pointers.

### **ROUND 2: (Technical HR 1)**

Questions were asked from areas of Interest like DSA(stack,queue, trees),DBMS (about Deadlock, Transaction, Normalization), and also on SQL (like joins,Keys aggregate functions).

Then was asked to write the code problem on arrays(pair sum).Go through the puzzles.

### **ROUND 3: (Technical HR 2)**

Project Explanation, Self Introduction, Coding problem based on DSA concept and Application development concept using DBMS .

Apart from answers they test on how we tackle a problem and our logics. Interviewer were patient which is also a reason for not lacking confidence while answering.

Thank you.
